

TJAGLCS NCO Academy Packing List

October 2017

The attached packing list includes required and optional items by reporting date/season. It reflects a minimum requirement that must be brought to the NCOA regardless of component and should have been issued previously.

Students must take into consideration unseasonable Virginia weather and personal considerations when deciding what to bring.

Additional quantities and optional items are encouraged to be brought whenever a doubt exists in a student's mind. Lists of optional items are examples of best practices or mission enhancing items that students have found beneficial in past classes.

Resolve any issues through your support channel and contact the NCOA if resolution can't be found, especially before purchasing required items at the NCO's expense.
