

### **Gettysburg Staff Ride**

During a 2-day staff ride to Gettysburg, NCOA students personally witness most of the significant historical locations where fighting took place over the three days of conflict in Gettysburg. Students receive a strategic Campaign brief from the Regimental Historian at TJAGLCS. While at Gettysburg, tour guides will brief at each stop point to describe the overview of battle events. Students are actively engaged in the experience by studying the battle prior to the staff ride, briefing the historical figures who were involved in various battles, providing leadership lessons learned from their study, participating in Pickett's Charge, and learning more about the battle at the Gettysburg Museum and Cyclorama.
